

Could It Be COVID-19?

Some of the symptoms of COVID-19, the flu and other common illnesses are similar; however, there are key differences. It may be hard to tell the difference based on symptoms alone and testing may be needed to confirm a diagnosis. It's also important to remember that **you may not experience all of the symptoms**. If you have any of the following COVID-19 symptoms, report them to Campus Safety (students) or Human Resources (employees).
