

The Bachelor's in Social Work at The University of Olivet is designed to lead to eligibility to become a Licensed Social Worker within Michigan and other states. States typically have additional post degree requirements to become eligible for a license and practice in this field. In Michigan, the applicable license is Licensed Bachelor's Social Worker (LBSW); other states may have a different license name.

The University of Olivet is currently in pre-candidacy for accreditation by the Council on Social Work Education's (CSWE) Board of Accreditation (BOA).

Pre-candidacy for a baccalaureate or master's social work program by the BOA indicates that it submitted an application to be reviewed for candidacy and received approval of its Benchmark 1 from CSWE accreditation staff to move forward for a candidacy review within 1-year. A program that has attained pre-candidacy status has not yet been reviewed by the BOA nor verified to be compliant with the Educational Policy and Accreditation Standards (EPAS).

Students that are admitted to pre-candidate programs in the fall (or later) of the academic year in which the program is granted candidacy status will be retroactively recognized as graduates from a CSWE-BOA accredited program as long as the program attains initial accreditation. Candidacy is typically a 3-year process and attaining pre-candidacy does not guarantee that a program will eventually attain candidacy and initial accreditation.

Pre-candidacy applies to all program options, which includes locations and delivery methods.

Accreditation provides reasonable assurance about the quality of the program and the competence of students graduating from the program.

Review our program's pre-candidacy status in [CSWE's Directory of Accredited Programs](#). For more information about social work accreditation, [email](#) CSWE's Department of Social Work Accreditation.

The list below provides a state-by-state breakdown of comparable licenses, and the eligibility for licensure based on Olivet's program. The information provided is designed as a baseline to determine whether the program meets individual state specific requirements. Other licenses or degrees may be more applicable and/or require additional standards. Licensure requirements and appropriate pathways are subject to change. Students should do their due diligence and determine the appropriate pathway and license type for themselves.

Alabama
